

Appendix 2

Excavations in Jaffa and Abu Kabir, 1985–2015

Aaron A. Burke and Martin Peilstöcker

University of California, Los Angeles and Humboldt Universität zu Berlin

Excavations in Jaffa by the Kaplans and earlier scholars between 1948 and 1985 are summarized in *HAI* 1 (pp. 25–26 in tables 2.7 and 2.8). A preliminary list of excavations since 1985 was also first offered in the appendix of that volume (pp. 26–29 on table 2.9). Since many publications appeared for these excavations since 2011, the list of excavations in Jaffa presented in Table 0.1 represents all excavation licenses issues from 1985 through 2015 for work done in Jaffa. References to published reports for Jaffa are to works listed in Appendix 3, §3. Research History, 1903–2015. Excavations at Abu Kabir, Jaffa’s eastern necropolis, are listed in Table 0.2 with references located in Appendix 3, §7. Abu Kabir. Appendix 1 can be consulted for general descriptions and localizations of excavation areas. In both tables, grid coordinates beginning with “12” reference the Old Israel Grid (OIG), while those beginning with “17” reference the New Israel Grid (NIG).

Acknowledgments

We thank Ruthy Shem-Tov and Yoav Arbel of the Israel Antiquities Authority for their assistance with updates to excavation licenses and other data compiled for this appendix.

Appendix 2 Tables

Table 0.1. Excavations in Jaffa from 1985 through the end of 2015 with license numbers, coordinates, location name, and available publications, updated from Peilstöcker (2011).

Institutional affiliations are IAA, unless otherwise noted in parentheses along with the excavator.
