Collections of Excavated Artifacts from Jaffa and Abu Kabir

Aaron A. Burke

University of California, Los Angeles

Intensive archaeological research on Jaffa since the inception of the Jaffa Cultural Heritage Project permits the collation of a number of locations of known artifact collections originating from Jaffa. Although this list will no doubt continue to be expanded in the future, it serves as a useful starting point for identifying Jaffa's archaeological remains among various collections worldwide. We omit here reference to collections of finds in the custody of the Israel Antiquities Authority.

Acknowledgments

I thank Yoav Arbel and Tzvika Shacham for their various additions to the list of collections.
